What It Is

All photos in this Package come from our previous flagship event, the Summit (2024).

Where explorers connect and ideas collide.

Summit EXPO celebrates Kanata youth innovation across engineering and STEM research.

An Evening in Three Acts

Act One Pitch Night

Each exhibitor introduces their project on stage.

Act Two Science Fair

Attendees interact with project booths & exhibitors.

Act Three Celebration

Awards are presented to exhibitors!

In both acts:

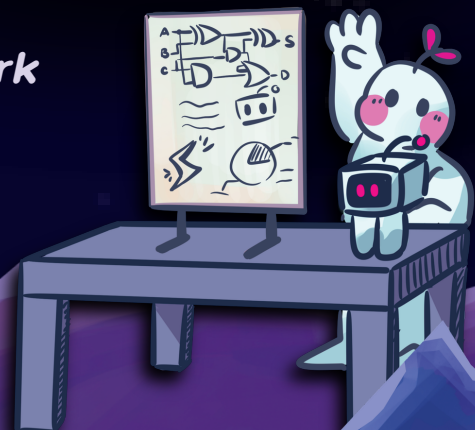

- Judges assess exhibitors' projects
- Attendees vote for excellent projects

Our theme is ...
All That Can Be

Our Mission

To supercharge idea exchange and spark STEM dialogue among Kanata youth.

Our mission was born in 2024 when building the "Summit," our first flagship event, and has remained unchanged.

Our History

In 2024, we engaged the Kanata STEM community in **the Summit**, a 4.5-hour symposium that voyaged across such topics as bioethics, pure mathematics, LLMs, women in STEM, aerospace engineering, robotics, deepfakes' dangers, and quantum computing.

In 2025, we made "**Terminal**," an interactive workshop that brought postsecondary experience and guidance to 80 households. Now, we are building our most ambitious flagship event yet: **Summit EXPO**.

Why Support Us

Your valuable partnership empowers youth to see themselves as capable builders of the technological future, while putting your brand in front of hundreds of engaged students and families.

Admission to Summit EXPO is free, for we believe in universal access to educative opportunities. But we have a projected \$800 operation cost for such items as:

- Venue decoration and signage
- Prizes for award-winning projects
- Refreshments and hospitality

In-kind sponsorships are also very welcome, such as refreshments and prizes (e.g. merch bearing your brand)!

Earl of March Secondary School is a registered charity. All donations are fully tax-deductible.

Summit Stats 2024

14 speakers

8 professional speakers

1 in 2 speakers are women
participants are women

250 total participants

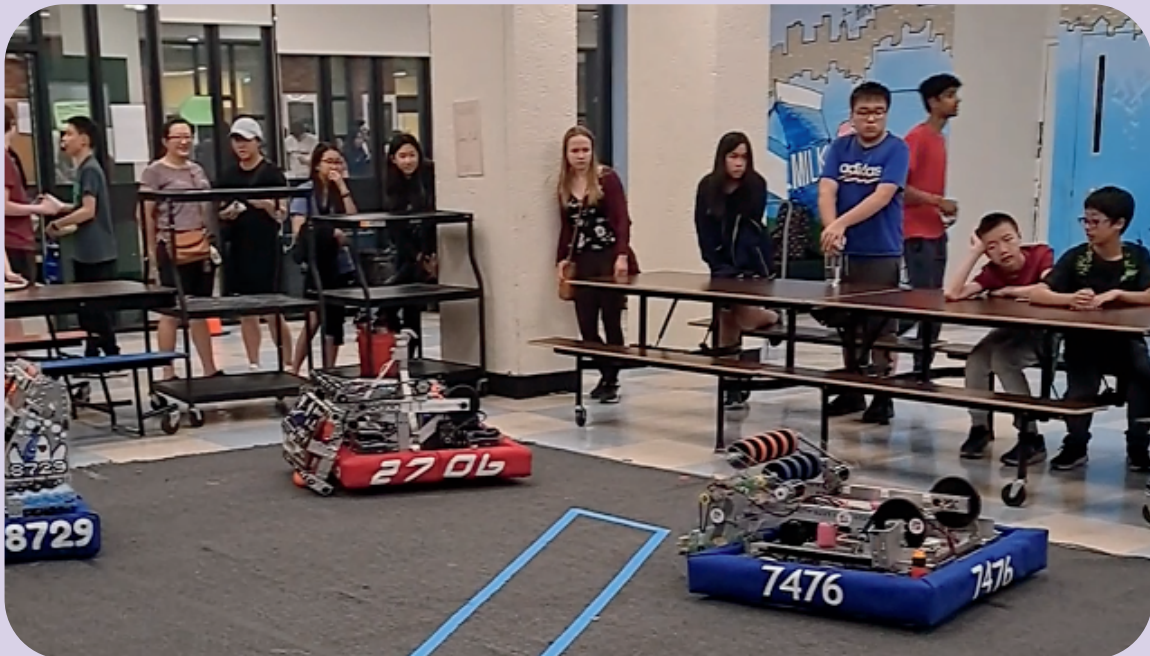

BACK IN 2024,

The Summit also engaged ...

12 school
clubs

3 *FIRST Robotics
Competition Teams*
